Monitoring your Mobile Payments

Leading Mobile Payments Monitoring.

CampaignShield helps to protect your mobile campaigns by ensuring they are sufficiently monitored to keep them live and protected from potential Mobile Payment (inc. Premium Rate Service) Regulatory issues.

CampaignShield monitors live campaigns for any service changes, in the most cost effective manner possible, while simultaneously ensuring long term stability to your campaigns.

CampaignShield provides an unparalleled tool for Compliance and Monitoring support, working in two main ways:

- Monitors and reports on **mobile payment flows**, rules and changes - time and date stamped.
- Monitors and reports on **mobile marketing** (and affiliates marketing) - time and date stamped.

“*CampaignShield works with websites, mobile sites, mobile apps and offline media.*”

CampaignShield

Monitoring your mobile payments

“*CampaignShield both monitors and delivers advanced reports based on the criteria selected.*”

CampaignShield works across all types of **Mobile Payment** initiatives, across; **Premium SMS, IVR Payments, Direct Operator Billing** and **In-App Billing** services, covering multiple markets.

CampaignShield for Service Providers

CampaignShield works by monitoring Service Provider's services; websites, mobile sites or offline advertisements.

CampaignShield for Aggregators

As a Mobile Aggregator you can easily add your clients (Service Providers), and monitor their campaigns using CampaignShield.

Choose which campaigns you want monitored (or select them all!). CampaignShield both monitors and delivers advanced reports based on the criteria selected.

Unparalleled with its ability to record, monitor and deliver. Results are recorded automatically, monitoring changes in billing flows, events and logic. Marketing is captured and checked, along with any supporting documentation.

Monitor and Protect

Running Premium Rate Services across all aspects of the Mobile Payments eco-system requires you to stay ahead of the curve. CampaignShield delivers on providing you with the reassurance you need, protecting you and helping to maintain up-time; keeping your services live.
